

Whether you operate one restaurant or a chain with up to 100 locations, Digital Dining allows you the versatility you demand as a flexible, hybrid point of sale solution. The hardware-agnostic system allows you to run it on tablets, iPads, or traditional POS stations to optimize staff productivity and customer experiences.

Benefits

- **Sophisticated Inventory Management:** Streamline ordering processes, prevent out-of-stocks, and manage waste.
- **Easy-to-Use:** Save time and money training staff quickly and with fewer errors.
- **Security:** Keep your customer and business data secure with PA-DSS validated software and PCI-DSS compliant payment processing.
- **Centralized Business Visibility:** Access and manage key business data anywhere, anytime, even from a mobile device from one centralized platform.

Features

- **Fast EMV payments**
- **Online ordering**
- **Pay-at-the-Table**
- **Table Management**
- **Labor scheduling and management**
- **Inventory Management**
- **Loyalty and Gift**
